Entrepreneurship Development Cell, JNTUHCEH

Entrepreneurship Development Cell (EDC) at *Jawaharlal Nehru Technological University Hyderabad, Hyderabad (JNTUH)*, formerly known as *Jawaharlal Nehru Technological University, Hyderabad*, was established in February, 2003 with the support from the Department of Science and Technology (DST), Govt. of India, New Delhi and promoted by JNTUH.

The Government of India has identified 'Entrepreneurship' as one of the principal mechanisms for the mitigation of Unemployment and Under-employment amongst Science & Technology Graduates in the country today. National Science and Technology Entrepreneurship Development Board (NSTEDB), set up in 1982 under the DST, felt that the EDCs, now known as Innovation & Entrepreneurship Development Cells (IEDCs), created in the Educational Institutions would not only help in strengthening Industry-Institute Interaction, but also promote Entrepreneurial Culture in Technical Institutions and Institutes of Higher Learning.

In order to make optimal use of Facilities, Expertise and know-how available in the Technical Institutions for the benefit of the society, it has been necessary that appropriate links are established between Institutions and the Industry. Special emphasis has been laid on Entrepreneurship and Self-Employment, keeping in view the present mandate of Trained Manpower that graduate out of Technical Institutions.

Aim & Objectives of the Programme

This inter disciplinary programme is aimed at encouraging students to familiarize themselves with the process of starting and running an Enterprise i.e., right from generating ideas till running an enterprise profitably so that they are well motivated to become entrepreneurs.

This programme makes students to enhance their business tactics and management. Use of technology for the business up gradation and marketing of the product. To respond effectively to the emerging challenges and opportunities both at national and international level relating to SMEs and Micro Enterprises.

Content

- ❑ Business Opportunities guidance and Identification in Science & Technology Sectors and Social Entrepreneurship sectors etc.,
