## Topics :

5 Things to know about IoT or How to make "Things" smart using IoT

1. Sensors - Overview of Sensors and Actuators used to collect the data from the external world

2. Controllers - Overview of Brains of IoT - Arduino, ESP 8266 , Raspberry Pi

3. Software - Overview of Programming Languages used to flash the hardware

4. Communication - Overview of Communication Protocols and Cloud services.

5. Challenges - Challenges faced in IoT like security, power, cost etc.

## Finally :

IoT Startups  and Job Oppurtunities

---

## Technical Seminar
## On
# "Internet of Things"

under
the Golden Jubilee Celebrations
of
JNTUHCEH

Organized by

## Department of Computer Science & Engineering
JNTUH College of Engineering
Hyderabad

## 7th September 2017 (3:30PM to 5:30PM)

## Venue

Department of Computer Science & Engineering
JNTU Hyderabad
